

K-LOVE is the station my family listens to at home and in the car. We know we will hear only positive words and songs without inappropriate language or obscene messages. Replacing K-LOVE with an LPFM station would be a loss to the community because K-LOVE is a unique, safe station for families to listen to. Parents need a station which will influence their children in a positive way; a station which does not have to be edited or screened before the family can listen to the songs. K_LOVE provides that service to my community.
